Chinese Firms Gain Hong Kong Foothold

<https://www.bloomberg.com/news/videos/2020-06-26/chinese-firms-gain-hong-kong-foothold-video>

June 25, 2020

“I think from the Chinese companies perspective today, they now have choices. Where traditionally they used to have very limited choices, right now have choices, Hong Kong being one of them. I think China has made this leap to global economic power - take its future among other things upon building critical capitol market.

So there's an incentive there right now for China to consider many options, and China has a lot of stake in having incredible markets right now.”
